

*Thought I would drop a little line and say congratulations on putting together such a wonderful conference. I really enjoyed it and it was a tremendous experience.*

Just a note to say congrats and thanks for the great assessment symposium! I'm sorry I couldn't stay for all of it, but the handful of sessions I did attend were really informative and certainly encouraged me to reflect on the assessment practices I'm using.

*I would like to say a very heartfelt thank-you! I found the symposium really enjoyable and stimulating.*

It was a privilege to be able to share ideas across the sector and to feel such a sense of mutual respect and support. I applaud you for what you have achieved.

*It was most enjoyable being at the conference, and thanks again for making all my arrangements.*

I had such an enjoyable time listening to the thought-provoking and insightful presentations, meeting new people and seeing some old faces! Thank you for your hospitality and generosity. This symposium was very worthwhile!

*I found the whole event very interesting and, while not directly related to the pre-tertiary field there were so many cross-over topics and similarities that I was able to get a great deal out of the vast majority of the sessions. Once again, many thanks for organising a great event.*

Congratulations again on the AiM conference, I got a lot out of yesterday.

*Just a quick note to thank you for your mighty fine effort in hosting the symposium. Well done and I think you should give yourself a big pat on the back.*

Just a note to say congrats and thanks for the great assessment symposium! I'm sorry I couldn't stay for all of it, but the handful of sessions I did attend were really informative and certainly encouraged me to reflect on the assessment practices I'm using. I look forward to hearing more about your OLT research as it unfolds :-)
